Comment Key or Definitions

The following definitions of comment descriptions represent this inspection report. All comments by the inspector should be considered before purchasing this home. Any recommendations by the inspector to repair or replace suggests a second opinion or further inspection by a qualified contractor. All costs associated with further inspection fees and repair or replacement of item, component or unit should be considered before you purchase the property.

**Inspected (IN)** = I visually observed the item, component or unit and if no other comments were made then it appeared to be functioning as intended allowing for normal wear and tear.

**Not Inspected (NI)** = I did not inspect this item, component or unit and made no representations of whether or not it was functioning as intended and will state a reason for not inspecting.

**Not Present (NP)** = This item, component or unit is not in this home or building.

**Repair or Replace (RR)** = The item, component or unit is not functioning as intended, or needs further inspection by a qualified contractor. Items, components or units that can be repaired to satisfactory condition may not need replacement.

In Attendance: Customer and their agent

Type of building: Single Family (1 story)

Approximate age of building: Under 10 Years

Temperature: Over 65

Weather: Clear

Ground/Soil surface condition: Dry

Rain in last 3 days: No
1. Roofing

Styles & Materials

Roof Covering: Architectural
Viewed roof covering from: Walked roof
Chimney (exterior): EIFS/Stucco

Inspection Items

1.0 ROOF COVERINGS
   Comments: Inspected

1.1 FLASHINGS
   Comments: Inspected

1.2 SKYLIGHTS, CHIMNEYS AND ROOF PENETRATIONS
   Comments: Repair or Replace
   - The tacks in on the two metal flashing positioned on the back roof should be caulked to prevent leaking in the future. There is no evidence that there is a present leak.

1.3 ROOF DRAINAGE SYSTEMS
   Comments: Repair or Replace
   - It is recommended all gutters discharge at least 4 feet from the house.

   Several of the downspouts are bent possibly restricting water flow.

   Recommend all gutters and downspouts be cleaned of debris.
The roof of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Roof coverings and skylights can appear to be leak proof during inspection and weather conditions. Our inspection makes an attempt to find a leak but sometimes cannot. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.
2. Exterior

**Inspection Items**

2.0 WALL CLADDING FLASHING AND TRIM

**Comments:** Repair or Replace

- Recommend caulking all corners where stucco and brick meet. (Picture 1)

- Recommend painting EIFS/stucco as a matter of preventative maintenance.

- Recommend sealing crack on the siding by hot water heater vent lines. (Picture 2)

2.1 DOORS (Exterior)

**Comments:** Inspected

2.2 WINDOWS

**Comments:** Repair or Replace

- Recommend caulking and sealing around all windows, specifically the window for the bathroom (Picture 1), and the bedroom window on the back corner close to the patio (Picture 2).

- Mortar should be sealed on window ledge by driveway window on the corner of the house.
2.3 DECKS, BALCONIES, STOOPS, STEPS, AREAWAYS, PORCHES, PATIO/COVER AND APPLICABLE RAILINGS

Comments: Repair or Replace

⚠️ The speaker in the corner of the patio is hanging by the wires. This is minor maintenance.

2.4 VEGETATION, GRADING, DRAINAGE, DRIVEWAYS, PATIO FLOOR, WALKWAYS AND RETAINING WALLS (With respect to their effect on the condition of the building)

Comments: Repair or Replace

⚠️ Recommend trimming all vegetation from the house by at least four feet.
The exterior of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.

2.5 EAVES, SOFFITS AND FASCIAS

Comments: Repair or Replace

⚠️ There is some soft wood decay on the back corner fascia and soffit by the patio.
3. Garage

Styles & Materials

Garage Door Type: One manual One automatic
Garage Door Material: Metal
Auto-opener Manufacturer: LIFT-MASTER 1/2 HORSEPOWER

Inspection Items

3.0 GARAGE CEILINGS
Comments: Repair or Replace

The ceiling has a gap by the pull down door in the storage room.

3.1 GARAGE WALLS
Comments: Inspected

3.2 GARAGE FLOOR
Comments: Inspected

3.3 GARAGE DOOR (S)
Comments: Repair or Replace

The trim around the metal door for the small storage room should be sealed.

3.4 GARAGE DOOR OPERATORS (Report whether or not doors will reverse when met with resistance)
Comments: Repair or Replace

The garage door will not reverse when met with resistance it does reverse when the beam is interrupted.
4. Interiors

**Styles & Materials**

**Ceiling Materials:** Sheetrock

**Wall Material:** Sheetrock

**Floor Covering(s):**
- Carpet
- Hardwood T&G
- Tile

**Interior Doors:**
- Hollow core

**Countertop:**
- Tile
- Cultured marble

**Window Types:**
- Thermal/Insulated

**Cabinetry:**
- Wood

---

**Inspection Items**

**4.0 CEILINGS**
- **Comments:** Inspected

**4.1 WALLS**
- **Comments:** Inspected

**4.2 FLOORS**
- **Comments:** Repair or Replace

Wood floor has a gap by the door to the hallway and in the hallway.

![4.2 Picture 1](image1)

![4.2 Picture 2](image2)

**4.3 STEPS, STAIRWAYS, BALCONIES AND RAILINGS**
- **Comments:** Inspected

**4.4 COUNTERS AND A REPRESENTATIVE NUMBER OF CABINETS**
- **Comments:** Repair or Replace

A couple of cabinet doors in the washer/dryer room do not close flush against the stop.
The interior of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. The inspection did not involve moving furniture and inspecting behind furniture, area rugs or areas obstructed from view. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.

4.5 DOORS (REPRESENTATIVE NUMBER)
Comments: Inspected

4.6 WINDOWS (REPRESENTATIVE NUMBER)
Comments: Inspected
5. Structural Components

Styles & Materials

- **Foundation:** Poured concrete
- **Floor Structure:** Slab
- **Wall Structure:** Wood
- **Ceiling Structure:** Not visible
- **Roof Structure:** Stick-built
- **Roof-Type:** Hip
- **Attic info:** Pull Down stairs, Storage, Light in attic

Method used to observe attic: Walked

Inspection Items

5.0 FOUNDATIONS, BASEMENTS AND CRAWLSPACES (Report signs of abnormal or harmful water penetration into the building or signs of abnormal or harmful condensation on building components.)

Comments: Repair or Replace

- There is evidence of potential wood destroying insects. Recommend qualified pest control technician evaluate and address.
- There is some minor corner cracking on slab. Recommend cracks be sealed with mortar or caulk.

5.1 WALLS (Structural)

Comments: Inspected

5.2 FLOORS (Structural)

Comments: Inspected

5.3 CEILINGS (structural)

Comments: Inspected

5.4 ROOF STRUCTURE AND ATTIC

Comments: Inspected

Roof structure is sound.
The structure of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.
### 6. Plumbing System

#### Inspection Items

**6.0 PLUMBING DRAIN, WASTE AND VENT SYSTEMS**

Comments: Inspected

**6.1 PLUMBING WATER SUPPLY AND DISTRIBUTION SYSTEMS AND FIXTURES**

Comments: Repair or Replace

- The shower head on in the master bathroom sprays water up the wall. (Picture 1)
  
  - The trim ring for the hot water valve has a gap in it. (Picture 2)
  
  - The kitchen sink spigot does not swivel properly. (Picture 3)
  
  - There is a cracked trim ring on the spray nozzle for the kitchen sink. (Picture 4)
  
  - The wallpaper is peeling in the shower for the hall bathroom. (Picture 5)
6.2 HOT WATER SYSTEMS, CONTROLS, CHIMNEYS, FLUES AND VENTS

Comments: Inspected

The hot water heater is leaking from the top of the unit. It is running down into the pan and out the drain to the outside. Recommend a qualified technician evaluate and repair or replace.

6.3 MAIN WATER SHUT-OFF DEVICE (Describe location)

Comments: Inspected

Water cut off is located by the Air Conditioning unit.
The plumbing in the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Washing machine drain line for example cannot be checked for leaks or the ability to handle the volume during drain cycle. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.

6.5 MAIN FUEL SHUT OFF (Describe Location)
Comments: Inspected
The gas meter and cut off is located on the front corner of the house.
7. Electrical System

**Styles & Materials**

**Inspection Items**

7.0 **SERVICE ENTRANCE CONDUCTORS**

Comments: Inspected

7.1 **SERVICE AND GROUNDING EQUIPMENT, MAIN OVERCURRENT DEVICE, MAIN AND DISTRIBUTION PANELS**

Comments: Inspected

7.2 **BRANCH CIRCUIT CONDUCTORS, OVERCURRENT DEVICES AND COMPATIBILITY OF THEIR AMPERAGE AND VOLTAGE**

Comments: Inspected

7.3 **CONNECTED DEVICES AND FIXTURES (Observed from a representative number operation of ceiling fans, lighting fixtures, switches and receptacles located inside the house, garage, and on the dwelling’s exterior walls)**

Comments: Repair or Replace

- There are two junction boxes in the attic that do not have covers on them. Recommend installation of proper cover. This is minor maintenance.

7.4 **POLARITY AND GROUNDING OF RECEPTACLES WITHIN 6 FEET OF INTERIOR PLUMBING FIXTURES, AND ALL RECEPTACLES IN GARAGE, CARPORT, EXTERIOR WALLS OF INSPECTED STRUCTURE**

Comments: Inspected

7.5 **OPERATION OF GFCI (GROUND FAULT CIRCUIT INTERRUPTERS)**

Comments: Inspected

7.6 **LOCATION OF MAIN AND DISTRIBUTION PANELS**

Comments: Inspected

- Panel is located on the side of the house by the driveway.
The electrical system of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Outlets were not removed and the inspection was only visual. Any outlet not accessible (behind the refrigerator for example) was not inspected or accessible. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.

7.7 SMOKE DETECTORS
Comments: Inspected

The electrical system of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Outlets were not removed and the inspection was only visual. Any outlet not accessible (behind the refrigerator for example) was not inspected or accessible. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. </tr>
<tr>
<td><strong>8.10 PRESENCE OF INSTALLED COOLING SOURCE IN EACH ROOM</strong></td>
<td>Inspected</td>
</tr>
</tbody>
</table>

The heating and cooling system of this home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. The inspection is not meant to be technically exhaustive. The inspection does not involve removal and inspection behind service door or dismantling that would otherwise reveal something only a licensed heat contractor would discover. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.
## 9. Insulation and Ventilation

### Inspection Items

#### 9.0 INSULATION IN ATTIC

**Comments:** Inspected

#### 9.1 VENTILATION OF ATTIC AND FOUNDATION AREAS

**Comments:** Inspected

#### 9.2 VENTING SYSTEMS (Kitchens, baths and laundry)

**Comments:** Repair or Replace

- There is a crushed vent line at the top of the pull down stairs. Recommend repair.

![9.2 Picture 1](image)

The insulation and ventilation of the home was inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Venting of exhaust fans or clothes dryer cannot be fully inspected and bends or obstructions can occur without being accessible or visible (behind wall and ceiling coverings). Only insulation that is visible was inspected. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.
10. Built-In Kitchen Appliances

### Styles & Materials

- **Dishwasher Brand:** FRIGIDAIRE  
- **Disposer Brand:** IN SINK ERATOR  
- **Exhaust/Range hood:** FRIGIDAIRE  
- **Range/Oven:** FRIGIDAIRE  
- **Built in Microwave:** FRIGIDAIRE

### Inspection Items

10.0 **DISHWASHER**  
   **Comments:** Inspected

10.1 **RANGES/OVENS/COOKTOPS**  
   **Comments:** Inspected

10.2 **RANGE HOOD**  
   **Comments:** Inspected

10.3 **FOOD WASTE DISPOSER**  
   **Comments:** Inspected

10.4 **MICROWAVE COOKING EQUIPMENT**  
   **Comments:** Inspected

The built-in appliances of the home were inspected and reported on with the above information. While the inspector makes every effort to find all areas of concern, some areas can go unnoticed. Please be aware that the inspector has your best interest in mind. Any repair items mentioned in this report should be considered before purchase. It is recommended that qualified contractors be used in your further inspection or repair issues as it relates to the comments in this inspection report.

*Prepared Using HomeGauge [http://www.homegauge.com](http://www.homegauge.com)* SHGI (c) 2000-2008 : Licensed To A Precision Inspection, LLC
The following items or discoveries indicate that these systems or components **do not function as intended** or **adversely affects the habitability of the dwelling**; or **warrants further investigation by a specialist**, or **requires subsequent observation**. This summary shall not contain recommendations for routine upkeep of a system or component to keep it in proper functioning condition or recommendations to upgrade or enhance the function or efficiency of the home. This Summary is not the entire report. The complete report may include additional information of concern to the customer. It is recommended that the customer read the complete report.

### 1. Roofing

#### 1.2 SKYLIGHTS, CHIMNEYS AND ROOF PENETRATIONS
- **Repair or Replace**
  - The tacks in on the two metal flashing positioned on the back roof should be caulked to prevent leaking in the future. There is no evidence that there is a present leak.

#### 1.3 ROOF DRAINAGE SYSTEMS
- **Repair or Replace**
  - It is recommended all gutters discharge at least 4 feet from the house.
  - Several of the downspouts are bent possibly restricting water flow.
  - Recommend all gutters and downspouts be cleaned of debris.

### 2. Exterior

#### 2.0 WALL CLADDING FLASHING AND TRIM
- **Repair or Replace**
  - Recommend caulking all corners where stucco and brick meet. (Picture 1)
  - Recommend painting EIFS/stucco as a matter of preventative maintenance.
2. Exterior

Recommend sealing crack on the siding by hot water heater vent lines (Picture 2).

2.2 WINDOWS

Repair or Replace

Recommend caulking and sealing around all windows, specifically the window for the bathroom (Picture 1), and the bedroom window on the back corner close to the patio (picture 2).

Mortar should be sealed on window ledge by driveway window on the corner of the house.

2.3 DECKS, BALCONIES, STOOPS, STEPS, AREAWAYS, PORCHES, PATIO/COVER AND APPLICABLE RAILINGS

Repair or Replace

The speaker in the corner of the patio is hanging by the wires. This is minor maintenance.

2.4 VEGETATION, GRADING, DRAINAGE, DRIVEWAYS, PATIO FLOOR, WALKWAYS AND RETAINING WALLS (With respect to their effect on the condition of the building)

Repair or Replace

Recommend trimming all vegetation from the house by at least four feet.

2.5 EAVES, SOFFITS AND FASCIAS

Repair or Replace

There is some soft wood decay on the back corner fascia and soffit by the patio.

3. Garage

3.0 GARAGE CEILINGS

Repair or Replace

The ceiling has a gap by the pull down door in the storage room.

3.3 GARAGE DOOR (S)

Repair or Replace

The trim around the metal door for the small storage room should be sealed.

3.4 GARAGE DOOR OPERATORS (Report whether or not doors will reverse when met with resistance)

Repair or Replace

The garage door will not reverse when met with resistance it does reverse when the beam is interrupted.

4. Interiors

4.2 FLOORS

Repair or Replace

Wood floor has a gap by the door to the hallway and in the hallway.

4.4 COUNTERS AND A REPRESENTATIVE NUMBER OF CABINETS

Repair or Replace

A couple of cabinet doors in the washer/dryer room do not close flush against the stop.

5. Structural Components

5.0 FOUNDATIONS, BASEMENTS AND CRAWLSPACES (Report signs of abnormal or harmful water
5. Structural Components

penetration into the building or signs of abnormal or harmful condensation on building components.)

Repair or Replace

There is evidence of potential wood destroying insects. Recommend qualified pest control technician evaluate and address.

There is some minor corner cracking on slab. Recommend cracks be sealed with mortar or caulk.

6. Plumbing System

6.1 PLUMBING WATER SUPPLY AND DISTRIBUTION SYSTEMS AND FIXTURES

Repair or Replace

The shower head on in the master bathroom sprays water up the wall. (Picture 1)

The trim ring for the hot water valve has a gap in it. (Picture 2)

The kitchen sink spigot does not swivel properly. (Picture 3)

There is a cracked trim ring on the spray nozzle for the kitchen sink. (Picture 4)

The wall paper is peeling in the shower for the hall bathroom. (Picture 5)

7. Electrical System

7.3 CONNECTED DEVICES AND FIXTURES (Observed from a representative number operation of ceiling fans, lighting fixtures, switches and receptacles located inside the house, garage, and on the dwelling's exterior walls)

Repair or Replace

There are two junction boxes in the attic that do not have covers on them. Recommend installation of proper cover. This is minor maintenance.

9. Insulation and Ventilation

9.2 VENTING SYSTEMS (Kitchens, baths and laundry)

Repair or Replace

There is a crushed vent line at the top of the pull down stairs. Recommend repair.
noise, contaminants in the building or in soil, water, and air; Determine the effectiveness of any system installed to control or remove suspected hazardous substances; Predict future condition, including but not limited to failure of components; Since this report is provided for the specific benefit of the customer(s), secondary readers of this information should hire a licensed inspector to perform an inspection to meet their specific needs and to obtain current information concerning this property.
